Thurs. Aug. 27
Tues. Sept. 22

Tues. Oct. 27
Thurs. Dec. 3 (delayed due to Thanksgiving)
No December meetings

Mission: The mission of the Pasadena Citizens' Advisory Council (PCAC) is to provide a forum that opens dialogue between citizens and industry, addresses issues of interest to both, and promotes awareness and understanding of those issues.

Purposes/Objectives : The purposes/objectives of the PCAC include but are not limited to the following:

- Industry and community will work together to educate the community about who "industry" is, their operations, and what they do for the community. Methods could include plant tours the PCAC believes useful, with question and answer sessions at plant sites. Industry should verbalize future plans well in advance so the community can digest and react to them and so that industry can work with the community to address concerns.
- Community and industry will work together to improve industry's understanding of community concerns. Concerns could relate to worker and community health and safety, risks and impacts from living near industry, emergency preparedness, economic issues, aesthetic issues, the relationship between jobs and education and the needs in Pasadena, and so on. Concerns could be identified by the PCAC itself or by a survey with sufficient focus that the PCAC could later consider how to address concerns.
- Industry will share its operating philosophy with the community so the community can assess industry performance and work with industry to bring about changes to improve the quality of life in Pasadena.

ARE YOU PREPARED?

- Have you signed up for the **NEW Pasadena community alert system**, SWIFT 911. Text SWIFT911 to 99538 to obtain directions for signing up.
- Have you downloaded the **ReadyHarris** app from your smart phone app store?
- Have you registered your cell and VOIP phones at www.911.org?
 - Have you looked at the websites of cities from which you want community warnings and signed up for whatever community warning systems they have—cell, text, email—starting with www.ci.pasadena.tx.us. If your city or the county calls for a shelter in place for an impacted part of the community, they will communicate by telephone notification systems. Most can also send text and email messages and use social media. Some have their own apps and other notification systems. Go to the city and Harris County websites to sign up for what they offer. The CAER Online app includes links to your community's website.
 - **Have you downloaded the CAER Online app? Search "EHCMCA CAER Online" in the Apple and Google Play stores.** When viewing the Latest CAER Messages from the app, you can click on each message to view the full content, share the message, and access the website at www.caeronline.org.
